EXPERIENCE

S.C. Johnson Leadership Development Program

May 2026- August 2026

- Selected as one of 50 students for SC Johnson's prestigious Leadership Development Program from a competitive national pool.
- Engaged in high-impact projects that enhanced leadership skills and deepened understanding of SC Johnson's business and values.
- Participated in immersive learning experiences focused on the company's global impact and sustainability initiatives.

Tetherless World Constellation

Oct. 2025- Present

- Collaborated on RUBICON, an AI initiative for the Office of Naval Research, by integrating and optimizing large language model pipelines using Hugging Face, OpenAI APIs, and vLLM to deliver quick, high-quality text feedback and enhance automated report generation for sailors.

MIT FutureMakers 2024 Mobile App Development with AI

June 2024- August 2024

- Designed three applications, including leading the creation of Wellness Wizard, an AI-driven hospital efficiency tool with a secure ChatBot feature and protected patient data system.

Girls Who Code Summer Immersion Program

June 2023- August 2024

- Gained first hand experience in robotics and cybersecurity
 - Awarded 1st place in a MoqUp Challenge hosted by J.P. Morgan Chase— designed and implemented an Iterative Dichotomiser 3 (ID3) algorithm in Python to evaluate environmental sustainability metrics.
-

AWARDS

- Hudson Valley Open Data Hackathon 2nd place
- RPI Quantum Hackathon ML vs QML Track Winner
- Girls in Math at Yale Top 10
- National Merit Scholar
